Index for Volume 75 (2004)

This index is composed of three subindexes: I. Bibliographic Index; II. Author Index; and III. Topic Index.

Entries in the bibliographic index are indexed by the last name of the author or, in the case of multiple authors, by the last name of the first author. Reference information for each entry includes the name(s) of the author(s), title of the article, and the volume number and pages on which the article may be found.

The author index cites the name of each author included in the volume, followed by the volume number and pages of the article. In cases in which the cited author is not the first author of the article, the first author is cited in parentheses so that the article may be located in the bibliographic index.

In the topic index, each article is listed under those important subjects about which the article provides information. The volume and page numbers are also provided.

I. Bibliographic Index

Ayers, Suzan F.; High School Students' Physical Education Conceptual Knowledge. 3, 272–287.

Ball, Stephen; Swan, Pamela D.; DeSimone, Rosemarie; Comparison of Anthropometry to Dual Energy X-Ray Absorptiometry: A New Prediction Equation for Women. 3, 248–258.

Beekley, Matthew D.; Brechue, William F.; deHoyos, Diego V.; Garzarella, Linda; Werber-Zion, Galila; Pollock*, Michael L.; Cross-Validation of the YMCA Submaximal Cycle Ergometer Test to Predict VO_2max. 3, 337–342.

Behets, Daniël; Vergauwen, Lieven; Value Orientations of Elementary and Secondary Physical Education Teachers in Flanders. 2, 156–164.

Blanchard, Chris M.; Rodgers, Wendy M.; Wilson, Philip M.; Bell, Gordon J.; Does Equating Total Volume of Work Between Two Different Exercise Conditions Matter When Examining Exercise-Induced Feeling States? 2, 209–215.

Cardinal, Bradley J.; Kosma, Maria; Self-Efficacy and the Stages and Processes of Change Associated With Adopting and Maintaining Muscular Fitness-Promoting Behaviors. 2, 186–196.

Cardinal, Bradley J.; Tuominen, Kaisa J.; Rintala, Pauli; Cross-Cultural Comparison of American and Finnish College Students' Exercise Behavior Using Transtheoretical Model Constructs. 1, 92–101.

Courneya, Kerry S.; Jones, Lee W.; Rhodes, Ryan E.; Blanchard, Chris M.; Effects of Different Combinations of Intensity Categories on Self-Reported Exercise. 4, 429–433.

Cox, Richard H.; Thomas, Tom R.; Hinton, Pam S.; Donahue, Owen M.; Effect of Acute 60 and 80% VO_2max Bouts of Aerobic Exercise on State Anxiety in Women of Different Age Groups Across Time. 2, 165–175.

Dail, Teresa K.; Christina, Robert W.; Distribution of Practice and Metacognition in Learning and Long-Term Retention of a Discrete Motor Task. 2, 148–155.

Dowda, Marsha; Pate, Russell R.; Felton, Gwen M.; Saunders, Ruth; Ward, Dianne S.; Dishman, Rod K.; Trost, Stewart G.; Physical Activities and Sedentary Pursuits in African American and Caucasian Girls. 4, 352–360.

Feltner, Michael E.; Bishop, Elijah J.; Perez, Cassandra M.; Segmental and Kinetic Contributions in Vertical Jumps Performed With and Without an Arm Swing. 3, 216–230.

Frank, Erica; Galuska, Deborah A.; Elon, Lisa K.; Wright, Elsa H.; Personal and Clinical Exercise-Related Attitudes and Behaviors of Freshmen U.S. Medical Students. 2, 112–121.

Gano-Overway, Lori A.; Ewing, Martha E.; A Longitudinal Perspective of the Relationship Between Perceived Motivational Climate, Goal Orientations, and Strategy Use. 3, 315–325.

Gilbert, Wade D.; Trudel, Pierre; Analysis of Coaching Science Research Published From 1970–2001. 4, 388–399.

Helbig, Casi Rabb; Gabbard, Carl; What Determines Limb Selection for Reaching? 1, 47–59.

Hillman, Charles H.; Belopolsky, Artem V.; Snook, Erin M.; Kramer, Arthur F.; McAuley, Edward; Physical Activity and Executive Control: Implications for Increased Cognitive Health During Older Adulthood. 2, 176–185.

James, C. Roger; Sizer, Phillip S.; Starch, David W.; Lockhart, Thurmon E.; Slauterbeck, James; Gender Differences Among Sagittal Plane Knee Kinematic and Ground Reaction Force Characteristics During a Rapid Sprint and Cut Maneuver. 1, 31–38.

Jensen, Jody L.; Korff, Thomas; Adapting to Changing Task Demands: Variability in Children's Response to Manipulations of Resistance and Cadence During Pedaling. 4, 361–369.

Kadota, Koji; Matsuo, Tomoyuki; Hashizume, Ken; Tezuka, Kazushi; Practice Changes the Usage of Moment Components in Executing a Multijoint Task. 2, 138–147.

Kamen, Gary; Neural Issues in the Control of Muscular Strength. 1, 3–8.

Index for Volume 75 (2004)

This index is composed of three subindexes: I. Bibliographic Index; II. Author Index; and III. Topic Index.

Entries in the bibliographic index are indexed by the last name of the author or, in the case of multiple authors, by the last name of the first author. Reference information for each entry includes the name(s) of the author(s), title of the article, and the volume number and pages on which the article may be found.

The author index cites the name of each author included in the volume, followed by the volume number and pages of the article. In cases in which the cited author is not the first author of the article, the first author is cited in parentheses so that the article may be located in the bibliographic index.

In the topic index, each article is listed under those important subjects about which the article provides information. The volume and page numbers are also provided.

III. Topic Index

Ability beliefs. Children's Motivation in Elementary Physical Education: A Longitudinal Study. 1, 71–80.

Accelerometer. Comparison of the Computerized ACTIVITYGRAM Instrument and the Previous Day Physical Activity Recall for Assessing Physical Activity in Children. 4, 370–380.

Achievement goals. A Longitudinal Perspective of the Relationship Between Perceived Motivational Climate, Goal Orientations, and Strategy Use. 3, 315–325.

Achievement goals. Children's Motivation in Elementary Physical Education: A Longitudinal Study. 1, 71–80.

Achievement motivation. A Longitudinal Perspective of the Relationship Between Perceived Motivational Climate, Goal Orientations, and Strategy Use. 3, 315–325.

Adiposity. Relationships Between Body Composition and Fundamental Movement Skills Among Children and Adolescents. 3, 238–247.

Adolescents. Coeducational and Single-Sex Physical Education in Middle Schools: Impact on Physical Activity. 4, 446–449.

Adolescents. Physical Activities and Sedentary Pursuits in African American and Caucasian Girls. 4, 352–360.

Aerobic capacity. Effect of Acute 60 and 80% VO_2max Bouts of Aerobic Exercise on State Anxiety in Women of Different Age Groups Across Time. 2, 165–175.

African American. Factorial Validity and Invariance of a Self-Report Measure of Physical Activity Among Adolescent Girls. 3, 259–271.

Aging. Physical Activity and Executive Control: Implications for Increased Cognitive Health During Older Adulthood. 2, 176–185.

Anterior cruciate ligament. Gender Differences Among Sagittal Plane Knee Kinematic and Ground Reaction Force Characteristics During a Rapid Sprint and Cut Maneuver. 1, 31–38.

Anxiolytic effect. Effect of Acute 60 and 80% VO_2max Bouts of Aerobic Exercise on State Anxiety in Women of Different Age Groups Across Time. 2, 165–175.

Assessment. Comparison of the Computerized ACTIVITYGRAM Instrument and the Previous Day Physical Activ-

ity Recall for Assessing Physical Activity in Children. 4, 370–380.

Assessment. High School Students' Physical Education Conceptual Knowledge. 3, 272–287.

Basketball. Individual Differences of Action Orientation for Risk Taking in Sports. 3, 326–336.

Behavior change. Self-Efficacy and the Stages and Processes of Change Associated With Adopting and Maintaining Muscular Fitness-Promoting Behaviors. 2, 186–196.

Bimanual control. Movement Time Modulates Spatial Assimilation Effects in Rapid Bimanual Movements. 2, 203–208.

Bimanual coordination. Movement Time Modulates Spatial Assimilation Effects in Rapid Bimanual Movements. 2, 203–208.

Binocular. Object Rotation Effects on the Timing of a Hitting Action. 2, 130–137.

Biomechanics. Neuromuscular Control and Coordination During Cycling. 1, 16–22.

Body composition. Comparison of Anthropometry to Dual Energy X-Ray Absorptiometry: A New Prediction Equation for Women. 3, 248–258.

Body fat. Comparison of Anthropometry to Dual Energy X-Ray Absorptiometry: A New Prediction Equation for Women. 3, 248–258.

Body mass index. Relationships Between Body Composition and Fundamental Movement Skills Among Children and Adolescents. 3, 238–247.

Children. Self-Efficacy Theory and the Theory of Planned Behavior: Teaching Physically Active Physical Education Classes. 3, 288–297.

Cognitive function. Physical Activity and Executive Control: Implications for Increased Cognitive Health During Older Adulthood. 2, 176–185.

Complex movement. Practice Changes the Usage of Moment Components in Executing a Multijoint Task. 2, 138–147.

Concepts. High School Students' Physical Education Conceptual Knowledge. 3, 272–287.

Confirmatory factor analysis. Factorial Validity and Invariance of a Self-Report Measure of Physical Activity Among Adolescent Girls. 3, 259–271.

Contextual interference. Random Practice Can Facilitate the Learning of Tasks That Have Different Relative Time Structures. 2, 197–202.

Curriculum. Ice Can Look Like Glass: A Phenomenological Investigation of Movement Meaning in One Fifth-Grade Class During A Creative Dance Unit. 3, 298–314.

Cutting. Gender Differences Among Sagittal Plane Knee Kinematic and Ground Reaction Force Characteristics During a Rapid Sprint and Cut Maneuver. 1, 31–38.

Cycling. Adapting to Changing Task Demands: Variability in Children's Response to Manipulations of Resistance and Cadence During Pedaling. 4, 361–369.

Cycling. Temporal Aspects of the VO_2 Response at the Power Output Associated With VO_2peak in Well Trained Cyclists—Implications for Interval Training Prescription. 4, 423–428.

Decision field theory. Individual Differences of Action Orientation for Risk Taking in Sports. 3, 326–336.

Decision making. Individual Differences of Action Orientation for Risk Taking in Sports. 3, 326–336.

Decisional balance. Cross-Cultural Comparison of American and Finnish College Students' Exercise Behavior Using Transtheoretical Model Constructs. 1, 92–101.

Degrees of freedom. Neuromotor Issues in the Learning and Control of Golf Skill. 1, 9–15.

Determinants. Attraction to Physical Activity Mediates the Relationship Between Perceived Competence and Physical Activity in Youth. 1, 107–111.

Disuse. Neural Issues in the Control of Muscular Strength. 1, 3–8.

Dual-task paradigm. Time Course of Attention and Decision Making During a Volleyball Set. 1, 102–106.

DXA. Comparison of Anthropometry to Dual Energy X-Ray Absorptiometry: A New Prediction Equation for Women. 3, 248–258.

Dynamical systems. Neuromotor Issues in Human Performance: Introduction. 1, 1–2.
